

## Clean Up Portland Harbor

Submission Date	2016-06-15 13:00:24
Letter	<p>Dr. Ms. McCarthy, The proposed cleanup of the Port and Harbor is a big win for industry and a bad deal for the public. EPA's cleanup proposal tackles just 8% of a site area that is 100% toxic. A more aggressive plan is needed to prevent even more harm to human health and the environment. On behalf of a people who rely on the river for food, recreation, employment and culture, I urge the EPA to implement a plan that: Moves quickly and sustainably reduces contaminants causing harm to Wampanoag and Coos Bay River resources. Includes ongoing monitoring and cleanup upriver and downriver from the site. Contributes to healthy fish that are safe to eat for a people. Holds polluters accountable for creating a safer Port and Harbor. These elements get us closer to the plan our communities deserve. And I deserve a clean, safe Port and Harbor. *Submitted during the comment period between June 9, 2016 to August 8, 2016 regarding the EPA's Port and Harbor Feasibility Study and Proposed Plan.</p>
